

LIFESTREAM™ CONNECT HL7 INTERFACE

New! From Clear Arch Health

Make faster and more informed clinical decisions that improve patient care and outcomes.

LifeStream™ Connect with HL7 Interface facilitates seamless integration of critical applications within a single platform to improve your workflow. Achieve maximum interoperability through an HL7 interface engine that allows easier communication across multiple EHR and EMR platforms. With LifeStream Connect, your healthcare organization can minimize operational costs by eliminating manual and duplicate data entry, in addition to enhancing the quality and accuracy of remote-based clinical care.

PRODUCT FEATURES:

- **LifeStream Connect** integrates with a wide range of platform providers, including Cerner*:
 - ‡ Electronic Health Records (EHR)
 - ‡ Electronic Medical Records (EMR)
 - ‡ Point-of-Care (POC)
- **LifeStream Connect** effectively utilizes HL7 to:
 - ‡ Deliver One-Way, Two-Way and/or Custom Interface Options
 - ‡ Simplify Data Entry and Data Exchange
 - ‡ Reduce Errors, Eliminate Redundancy
 - ‡ Improve Workflow Efficiency
 - ‡ Minimize Expenditures
